

**Model GS-1100 - NON-AMPLIFIED**  
0-25 Mile Range

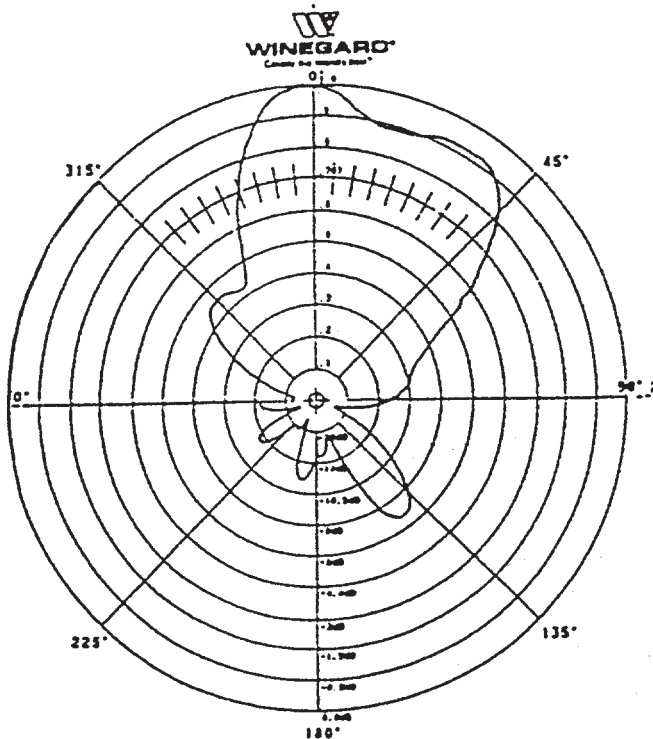

**Model GS-2200 - AMPLIFIED**  
10-45 Mile Range

**CHANNEL 2**

**CHANNEL 9**

**CHANNEL 50**

**ADVANTAGES:**

- A. Small compact, rugged design
- B. Aesthetically pleasing
- C. Easy to install
- D. New gray color to blend with roof antennas
- E. Ideal for TV signals 180° apart

**DISADVANTAGES:**

- A. Does not pick up signal from back
- B. NOT a long range antenna
- C. Amplified model can overload if installed too close to transmitters
